resources. The men joined the CCC voluntarily to work on such tasks as building bridges, erosion dams, planting trees, fighting forest fires and controlling insects and plant

### KCC Asks For 1-Mill Increase In Thursday Vote Crawford County residents will vote on a one mill increase request for Kirtland Community College in a special election

Thursday, March 12.

Kirtland currently collects one mill from county taxpayers. This one mill was approved by voters in 1966 when the community college was established. KCC has not had an increase in operational millage

The one mill KCC is asking for would give the college about \$915,000 extra the first year. College officials estimate at least \$700,000 of that is needed just to maintain current levels of operation. The remaining amount would be used to help areas of instruction in degree and certification programs, continuing education, community services, and student support services.

The college was unsuccessful in two previous attempts at asking voters for millage increase. In September, 1972, and November, 1985, proposals for one-half mill increases were defeated. The 1985 proposal was defeated by about 1,200 votes in the college district. The KCC district includes all of Roscommon, Crawford, Ogemaw, and Ogemaw counties with portions of Alcona. Gladwin, Kalkaska, Otsego, and Missaukee

The college has three main sources of revenue: state aid (which accounts for about 47 percent), property tax (25 percent

of total revenues), and tuition (20 percent). The alternative finance study says the outlook for any increase in state aid is bleak.

Tuition increases of five percent for indistrict students and 23 percent for out of district students have already been made starting in January, 1987. The KCC Board of Trustees does not want to raise tuition fees again, and even higher tuition rates could not bring in enough revenue to meet the rising college expenses.

That leaves millage as the only area to bring in more revenue. The one-mill increase would cost the average homeowner in the district (with a property value at \$28,875 and S.E.V. at \$14,438) about \$15 extra a year.

Crawford County voters will cast ballots at four places on Thursday. Voters in Crawford AuSable School District precinct 1 covering Grayling Township, the city of Grayling, and a portion of Beaver Creek Twp. will vote at the Grayling Twp. offices located in the old Bear Archery building. Voters in precinct 2 covering Frederic and Maple Forest townships plus a portion of Otsego Lake and Bear Lake townships will vote at the Frederic Elementary gym. Voters in precinct 3 covering Lovells Township will vote in the Lovells Township Hall.

Voters in South Branch Township and a portion of Beaver Creek Township will vote at the Roscommon Middle School library.

### County Commission Resolves Conflict of Interest Charges

Crawford County commissioners, following recommendations from the assistant prosecutor, passed two motions at a special meeting March 4 dealing with conflict of interest charges against commissioners Jeannette Kitchen and Larry Mattis.

The special meeting was called by chairman Bud Joyce who said the conflict of interest charges were brought to him by individuals within the last several weeks.

The first charge was in connection with a housing rehabilitation loan for Kitchen approved by the county housing commission on Sept. 8, 1983.

The county housing commission approved the loan with the requirement that Kitchen tell the county board about the loan.

At the Sept. 13, 1983, county board meeting Kitchen announced she was eligible for the loan and was approved for one. There were

no objections from the county board. Assistant prosecutor David Sabin, who in-

vestigated both charges, said there was a state statue in place requiring any business deal between a commissioner and the county be approved by a 3/4 vote of the county

Sabin said the requirement of the statue was never passed on to Kitchen.

"I'm personally convinced the problem with compliance was the board's ignorance of the statue," said Sabin.

"Technically, this is a violation of that statue," said Sabin. "But it's merely a technical problem. I see no value in doing anything else other than amending the minutes of the Sept. 13, 1983, meeting to correct the

oversight." Sabin said Mason's Rules of Order allow for minutes to be corrected regardless of the

time elasped. He said information he gathered indicated Kitchen did verbally disclose information and there was nothing to indicate 3/4 of the

board would not have approved.

"I announced at the board meeting I was seeking the loan," said Kitchen. "If I had known about the statue I would have complied."

"None of us can know all of the Michigan law," said Mary Harland.

Joyce said he remembered Kitchen telling the board about the loan and added that it was not Kitchen's job but the housing commission's to know about the statue.

"Jeannette Kitchen did nothing illegal," said John Miller.

The board voted 5-0 to amend the minutes to comply with the statue. Kitchen and Earl Haight abstained from voting.

The second conflict of interest charge was in connection with Mattis buying an icemelting product through the county. When the county ordered the product, Mattis requested a couple extra barrels be ordered for him. Mattis paid for the product at the county's cost. The price the county paid

### **DSS** Imposter Foiled Trying To Take Child

A man identifying himself as a Protective Services worker attempted to take a child from its mother in Grayling last

According to the police report the man offered no name or identification but indicated that he had complaints filed against her. The individual left after the mother refused to give up her child or allow the man into her home.

Crawford County Social Services director Robert Porter said that anyone posing as a Protective Services worker should be asked for proper identification. He said that the worker should be happy to show his card which is similar to a Michigan driver's license. It will have a photograph of the worker on the card, he noted.

Porter said that parents should not allow a child to be taken unless the worker has a court order or is accompanied by a police officer. The court order will be a distinctly legal looking document signed by a probate judge and will have a seal affixed on it. Porter suggested that if the parent has any doubt about the person calling, he or she should contact the local Department of Social Services office at 348-7691.

### **Association Formed For** Michigan River Guides

Michigan River Guides Association was created by concerned river guides who have been operating on designated navigable waters in the State of Michigan. Its purpose is improving guiding standards, maintaining a uniform quality of service, and promoting those services through cooperative effort. The Association is committed to the preservation and protection of gamefish and animals, and their environment, through sound conservation practices.

The Michigan River Guides Association is governed by a nine member board of directors. The President is Lee Bienz of Wellston. Vice President Ray Schmidt, Manistee and Secretary-Treasurer Thomas Frank of Saginaw.

Members must be Michigan residents and have a minimum of three (3) years experience as an outfitter, guide or boatman. They

must agree to comply with all Michigan laws and regulations and be fully insured.

In announcing the forma-

tion of the Association President Bienz stated: "We see this as a major step insuring the optimum utilization of our rivers' fisheries and preventing their abuse. We are committed to promoting the sporting ethic with our clients and all others with whom we come in contact. We expect to have a close working relationship with the DNR." The next two regular

meetings are scheduled for March 9th and May 4th. Prospective members are encouraged to attend, since each new application is subject to review by the board of directors prior to acceptance. In addressing potential members, Bienz said. "We don't see ourselves competing with the charterboat captains working on the

lakes. That's a completely

different area. Right now,

### **500** Guards Trained As Cold Weather Instructors

By Don Geiss

Citing the need for training 500 guardsoldiers as cold weather instructors, Major General Vernon J. Andrews, the Adjutant General of Michigan, talked to a group of reporters at a briefing last week on the win-

ter operations. Lt. Col. Phillip LaChance, commandant for the winter training operation said that the instructors for the program were themselves trained by personnel from Fort Greeley, Alaska. He said that once the guardsoldiers are trained they will then be able to train the persons from their own units in future winter operations.

LaChance pointed out that one group of 201 soldiers received the instruction during an earlier two week period and these along with the persons presently in training were selected. Two from each unit of the guard in Michigan were picked.

General Andrews told the group that any potential enemy is going to use bad weather to his advantage and the guard must be prepared to fight anywhere, in any kind of terrain, and in any kind of weather. He said, "When we begin to bring guard units to Camp Grayling next winter for their annual training we will have a force already in place to teach the units how to conduct operations in cold weather."

LaChance noted that each guard division is paired in combat with a regular army division and the army would expect the guard units to be well trained to fight along with them in any type of weather condition. He said that special emphasis in training is placed on a buddy system so that a partner can watch his buddy for injury or such things as frostbite. Other emphasis is placed on safety, leadership and common sense, he commented.

The winter program is devoted to both classroom and field instruction and will conclude with a test and finally a certificate showing completion of the course, LaChance said. Sessions in the classrooms included

care and wearing of cold weather clothing and equipment, cold weather environment and injuries/first aid.

In the field the guard has sessions devoted to skiing-basic movement, snewshoe techniques, erection of tents, land navigation, traps, snares and fires and camouflage. Also included in the field training are sessions on concealment of the bivouac site, night movement and building improvised shelters.

The group attending the briefing were taken to the wooded bivouac site where the guardsoldiers were setting up the tents and building snow windbreaks. The first stop on the training tour was an inside barracks view of a model area, complete with miniature men and equipment. Once the basic information about how the units would be located was shown the group it was easier to understand the on-location activity.

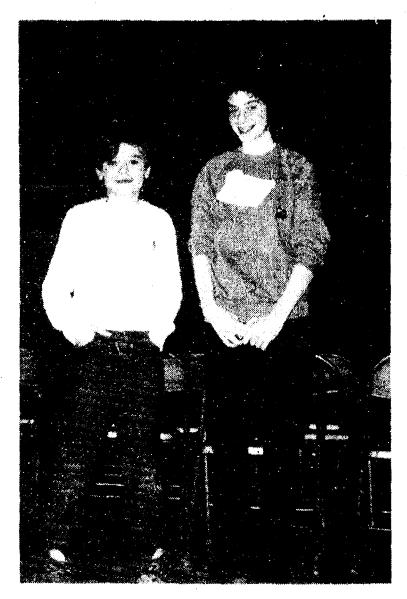

The men, skis, and snowshoes, all in white were indeed hard to pick out against the snow while the olive drab tents and vehicles stood out starkly against the white background.

Although the winter has been mild and the snow not too deep, it was evident that there is a distinct change in maneuverability and ways to survive and fight.

LaChance, in previewing future plans once the cadre of trained guard is formed, said that each winter different units will come to Camp Grayling. He said that during the winter of 1988 the 1st Battalion will train and in 1989 the 177th MP Brigade will be on site. During 1990 an armored brigade will train and in 1991 the 46th Brigade of the 38th Infantry Division will be at camp for the two weeks during the winter.

Concluding his talk to the group, General Andrews said that the army and airforce cannot go to war without the guard because they must supply the personnel and maintenance. He said the guard must be ready to fight in all kinds of weather and on differing terrain.

REGIONAL CHAMP — Pictured above are Angela Thompson, 7th grade, and Andrew Creps, 5th grade, who recently competed in the Regional Spelling Bee, held in Harbor Springs, Michigan. These students were the winners of spelling competitions held in the Grayling Middle School and Frederic Elementary School, respectively. Angela won the regional contest and Andy came in 5th out of sixteen contestants. Other schools represented at the spelling competition were Atlanta, Beaver Island, Black River, Boyne City, Harbor Springs, Kingsford, St. Ignace, Mackinac Island, Rogers City, Alpena, Thunder Bay, and Wolverine. This regional bee is part of the Scripp-Howard National Spelling Bee, and Thompson goes on to compete next in Southfield, Michigan, for the Michigan Championship. State champions all meet to compete in Washington, D.C. in May.

Sabin said that by the strictest interpretation of the conflict of interest statues, this can be construed as a violation.

"My perception of this violation is that little or no benefit was gained by Mattis. My only recommendation is that the minutes reflect this was addressed at this meeting and that all county officials and employees be notified that anything that even hints of conflict of interest be brought before the board for approval," said Sabin.

Sabin said conflict of interest involves any public official or employee who uses his position to gain an advantage the public does not have.

Year after year, the GHS wrestling and skiing programs stand out, often sending our students to the high point of high school athletics — the state championships. More than 80 Grayling High boys and girls have made it to the state finals through the leadership of GHS wrestling coach Don Ferguson and GHS skiing coach Mike Wieland.

That's a large number of GHS students reaching a pinnacle few of us ever reach.

In wrestling, Ferguson built the program from the ground up. He started a wrestling club in 1973 and helped make it a team sport at GHS in 1974.

In the years since then, Ferguson has helped 43 GHS wrestlers reach the state

Three of his wrestlers, Burt Partello, John Solomonson, and Barsie Cross, won state titles. Grayling High School has more state champions in wrestling than any other school north of Mount Pleasant.

Eleven of Ferguson's wrestlers at Grayling have reached 100 victories or more in their high school careers. Fourteen of the wrestlers he coached went on to wrestle in college, including Tim Jones who placed 2nd in the nation in NCAA-Division II and Solomonson who placed 4th and 5th in the nation in NCAA-Division II.

Thanks in large part to the wrestling techniques he teaches, his motivation, training knowledge, and experience, his GHS teams have won one conference title, one district title, two regional titles, and have placed third at the state championships.

Ferguson has been rewarded with seven tournament coaching awards and three Regional Coach of the Year awards, but not enough people in Grayling realize how much he has given our kids.

In skiing, GHS has taken on the biggest schools in the state and consistently produced winners.

In skiing there are no class divisions for high schools. GHS, a class C school, competes against class A Traverse City, downstate schools, and every school in the state with a skiing program.

Since 1966, when Mike Wieland took over as head skiing coach for both boys and girls teams, five GHS teams of six or more skiers have raced in the state championships. Six GHS skiers also went to the state championships qualifying as individuals instead of with their teams.

GHS skier Karyn Reynolds won the state title two different years and five regional individual titles have gone to GHS skiers.

The boys team won one regional title, five conference titles, and qualified for state three times. The girls team won three conference titles and qualified for state twice.

Several times Grayling would have sent teams to state finals if there had been a class division such as A-B schools and C-D schools. But Grayling was placed in the toughest regional in the state against class A Traverse City, class B Petoskey, and class B Cadillac — all periennial ski powerhouses. Sometimes these top schools would nip Grayling by seconds to keep the Vikings from advancing to state.

Through Wieland's instruction and dedication, Grayling teams have often overcome the big advantage held by other schools located near ski resorts with big

Although wrestling and skiing have not usually drawn the biggest crowds in Grayling, the people here should appreciate the opportunities these two coaches have given our students to compete at the very best level in high school sports.

Dear Editor, How can people be so inconsiderate? I have sat and watched more than once the

young and able park where our wheelchair people should be parking. And persons with wheelchair and canes have to struggle through the snow and ice to

go shopping. How can we as a citizen get this law enforced?

March 7, 1987

To The Editor: Since this seems to be open season on writing letters about the noise and inconvenience caused to some of the residents and vacationers, I thought I should in-

clude my opinion as well.

Some of the letter writers are objecting to the noise in their area while the National Guard prepares to be battle ready in a not-too-perfect world. While the National Guardsmen face the real possibility of fighting and dying to protect our freedom, we are confronted by a vocal minority who have their peace and quiet disturbed. I have been an avid reader of the Avalanche for many

years and have read numerous letters of Don Welser and although I haven't taken them seriously, I certainly have been amused by his humorous ramblings on. His letters usually go from the ridiculous to the sublime, such as his suggestion that the National Guard move to the Mexican Border. He also mentions that thousands of objectors are not being heard from. Mr. Welser, I have read just five letters in the last four issues of the Avalanche, and two of them have been from you.

Next we heard from a vacationer, Charles Raches from the affluent Detroit suburb of West Bloomfield, who built a pre-retirement home on the AuSable, be-

river location isn't worth as much as he paid for it, and he is looking for a new retirement community. He then questions the sanity of us living here by stating "Who in their right mind would move into this county?" Just what the local residents need, degrading comments from downstate vacationers, telling us what's good or bad for us. Mr. Raches, if you truly want peace and quiet, come live here in winter when there is two or more feet of snow and the temperatures go down to 20 degrees below or colder.

The next letter comes from a senior citizen who partially blames the business community for the incent years. Business leaders live in Grayling too. Your right to retirement and to grow old in America is being protected by the National Guard that occasionally may practice maneuvers that may be disturbing to you. In every facet of our lives, the government is always there to see that our rights are not trampled upon by others who could take our liberty away. As the often quoted Elmer Davis said "The price of freedom is eternal vigilance."

creased noise levels in re-

Yes gentlemen, I hear the machine guns on a summer night, my windows rattle when the artillery is being used. Helicopters and fighters pass over my house in

the middle of the night, huge C-130 transports fly only a few hundred feet high with cargo doors open preparing for a night drop just a few miles away. I do not consider that a nuisance, but a necessity. Perhaps the theme from the mini-series "Amerika" was correct. The real enemy is apathy and self interest as well as overindulgence.

Instead of complaining about the National Guard we should be thankful they exist because if they didn't, we wouldn't.

### Leave Local Control of River with People

**Almanack** Republican

volatility is likely

by Richard Milliman

ONE OF THE growth industries in Michigan in the next several months should be political science.

Students of what many consider the black art of politics will be able to conduct many studies and write many dissertations on what's going to happen in Michigan political circles in the coming days-and only touching half of the spectrum, too.

With the takeover of the party apparatus by folks who have been on the outside looking in, the Michigan Republican Party will be fertile ground for political academia.

Michigan Democrats can be considered exempt from similar close inspection for now-although it's always wise to keep a close eye on everybody in politics, because you never can tell what's going to happen.

ALL THIS observation is sparked by the recent Republican state convention in Lansing where delegates pledged to the presidential candidacy of TV evangelist Pat Robertson teamed with delegates leaning toward the presidential candidacy of U.S. Rep. Jack Kemp to take over the formal party structure.

Sure, some parts of the apparatus are havens for Michigan Republicans loyal to the presidential hopes of Vice President George Bush. Some pro-Bush Republicans even have been included in the overall Robertson-Kemp ruling coalition.

But the Republican ultra-conservatives are riding high in the saddle right now. And changes certainly will be made.

FOR EXAMPLE, WILL GOP State Chairman Spencer Abraham be able to ride out the storm from the right? And more important, will he want to?

Those seem rather pointless questions about a state chairman who was just elected to a third two-year term without opposition.

But they are legitimate questions anyway. Just days after Abraham was re-elected by acclamation, a new strongman in Michigan politics was suggesting on public television that maybe he ought to step aside.

David Walters, described in the media as Rev. Robertson's top presidential campaign aide in Michigan, indicated he thought maybe Mr. Abraham was too pro-Bush, that he would probably come under increasing pressure from the new ruling coalition on the state Republican committee, and that therefore it might be in Mr. Abraham's own best interests if he quit.

AT ANY RATE, Mr. Walters told a TV panel, Mr. Abraham might want to run for office himself and that might make a dif-

"I think Spencer is interested in running for an elected office," Mr. Walters said. "So I don't see him finishing the full twoyear term...I think it would be in Spencer's best interests to leave."

Abraham has admitted an interest in exploring running for the U.S. Senate in 1988, although his candidacy is not very likely. If he did decide to run, Abraham said, he certainly would quit the GOP post. But he said he has no such plans.

HOWEVER, clearly the Robertson-Kemp ruling clique is feeling its oats, or Mr. Walters, as one of its leaders, would not be suggesting the state chair step aside. And, as the new dominant force gets more used to its strength, it most likely will get more demanding. Mr. Abraham may indeed take another look at some other line of work before his time is up.

The same goes for Vice Chairwoman Larrain Thomas of Detroit, who also was reelected without opposition. Ms. Thomas has never been especially comfortable with the far right within the Michigan Republican Party, and vice versa. Whatever Mr. Abraham's eventual fate turns out to be, Ms. Thomas may share it.

Then there are the other top guns in the Michigan Republican Party - GOP National Committee members Peter Secchia and Ronna Romney. Both face reelection by the next state Republican Convention next February when delegates also are finally selected for the presidential nominating convention in August 1988.

If the 1988 Michigan state convention has the same temper as that just concluded, Mr. Secchia and Ms. Romney can kiss their jobs good-bye - unless an awful lot of maneuvering takes place between now and

\* \* \* OF COURSE, many other variables may come into play in the next several months. The Robertson-Kemp marriage may come unstuck, and warfare may break out. One or the other of these two may drop out of the presidential sweepstakes, or both of them might.

The right-to-life battle in Michigan may sap the strength of the Robertson presidential boom. The newly activated Christian activists - who are at the core of the Robertson-Kemp coalition right now — may for one reason or another lose their zeal for politics, permitting a retakeover by the "regular Republicans" they replaced.

The presidency could even see a change, for one reason or another, and George Bush conceivably could enter the 1988 convention as the incumbent president rather than as merely a candidate, which would throw the whole ball game into different dimensions.

Or a combination of these possibilities, or many others, may emerge.

This is why Michigan Republican politics will be a productive field for political study, analysis and forecasting for the next couple

Here we go again, folks! Some eight years ago the U.S. Forest Service came up with a bright-eyed and bushy-tailed scheme: include 91 miles of the AuSable watershed into the National Wild and Scenic Rivers Act.

That little gem was contested locally—for obvious reasons. For these past years it has lain dormant. Now its Michigan cousin, The Natural Rivers Act of 1970, has been quietly dusted off instead. The DNR has announced a series of public hearings to unveil their bid to manage the AuSable. The first of these has been scheduled for April 28th, 7:00 p.m., at Grayling High School.

At first glance the DNR's proposal-which is already law-looks harmless enough. They want "to protect (the river's) many natural qualities." Well, who doesn't? But-and here's the stinger—tucked away at the back of the act (Section 14 of 16) is a paragraph everyone in the AuSable watershed should be alerted

"Nothing in this act shall preclude a component of the system from becoming a part of the National Wild and Scenic Rivers Act, Public Law 90-542, approved Oct. 2, 1968. The commission may enter into written cooperative agreements for joint federal-state administration of rivers which may be designated under Public Law 90-542."

Simply stated, once in place, the NRC has the power to invite the feds to take over the entire watershed! That's it in a nutshell. A two-headed monster: either the DNR takes over the river or else they take it and then hand it over to the feds via the back door when-

Just how large is the scheme? In DNR's figures: (approximate mileage) Main stream: 98 miles; South Branch: 34 miles; N. Branch: 32 miles; tributaries: 136 miles. Total: 300 miles.

The DNR proposal impacts an area 90 miles long and from 10 to 30 miles wide.

The U.S. Forest Service proposal describes the same size river basin, but speaks of controlling "only" 91 miles of river, and 268 acres per mile on both sides of the corridor.

How about cost? The DNR proposal does not specify cost, which is an interesting fact in itself. The Forest Service proposal estimates a price tag of \$22,477,000 for the first five years of operation. (Of this \$4,554,000 yearly is slated for land acquisition, and condemnation procedures are spell-

ed out quite bluntly.) They are forthright enough to point out that these figures are in 1977 dollars. What would that translate to in 1987 dollars? Somewhere around \$40,000,000?

The scenario is crystal clear. The DNR will have next to an impossible task in prying that kind of money from Lansing. The next step is obvious enough—the NRC puts Section 14 into high gear and invites Big Brother to step in. (After all, "They" have more money than we do. But let's not

forget—"they" is "us.") Just how much Big Brother do we need, anyway? Or more to the point, how much of him can we take before we go

bankrupt? The Army controls 150,000+ acres of Crawford land. General Andrews (1/22/87) tells us the guard has just purchased \$500,000

Twenty-three miles of the

AuSable from Mio downstream are already in the Federal Wild and Scenic Rivers Program. The feds now own Wakely Lake property-and \$18,000 tax loss yearly is ours to pick up. The 1300 acre Rayburn property seems to be headed for the DNR, and if so, there goes another \$20,000 in taxes. The "State Eyes 600 Acres In Geo Mason Tract" reads another headline (1/19/87). State forests comprise 29%

2/3 of the entire AuSable watershed! Section X of the DNR

of the basin area. And now

proposal glibly states: "While this provision (Sec. 14) does exist, the DNR feels that the state/local cooperative protection effort implemented through Natural Rivers' designation affords adequate protection to the AuSable River and it's tributaries. The Department will not actively seek federal designation in the future portions of the AuSable River protected by the Natural

Rivers" program." Sounds good, doesn't it? Well, read on, to Section Z, three pages later:

"The DNR will work towards the development of cooperative agreement with the U.S. Forest Service. Such an agreement shall advisitor management, public lands administration and the protection of the natural values of the AuSable. Such cooperative agreement shall be developed in accordance with the AuSable Natural Rivers Plan as approved by the Natural Resources

Commission." I would very much like to agree with Mr. Douglas Carter. DNR Supervisor of the Natural Rivers Program, when he says "The plan stresses that the designation in no way means a DNR takeover of the lands. Nor will private lands be opened up to public use", but in light of Section 14, and again Paragraph Z, I'm skeptical.

questions come to mind: 1. How much more of the land in our watershed counties can we afford to give

A number of nagging

away and still survive as taxpayers? 2. Do we really need more bureaucratic controls?

3. Do we taxpayers need the cost of such a takeover? 4. And last—but not least—what protection do we have now or at a future date-from an NRC decision to put Section 14 into motion?

Way back in 1978 the (a governmental watchdog agency (chided the Depts. of Interior and Agriculture for the costly manner in which they acquired new rivers for the Wild and Scenic Rivers

The GAO declared, "Purchase is unnecessarily costly and not intended by the Congress." Rather than federal acquistion of river frontage, the GAO proposed that the two departments work with state and local governments to use zoning to preserve wild and scenic rivers.

This same watchdog agency also pointed out that designation as a Wild and Scenic River increased usage on Wyoming's Snake River as much as 27% annually from 1974 to 1977. Much the same happened on Idaho's Bruneau River, the GAO stated, with vandalism, unsanitary littering, and depletion of firewood supplies resulting.

Herein lies a key issue. Instead of inviting the camel to shove his nose into the tent, let's insist that Crawford's in-place already model Greenbelt Zoning Ordinance be applied wherever need be within the river corridor to preserve the "river's many natural qualities."

Simplistic? Perhaps. But logical. And practical. It would save us millions in taxes. It would eliminate General Accounting Office layer upon layer of unnecessary bureaucracy. It would leave local control. where it rightly belongswith the people.

**Crawford County** Commissioners Rift

By Don Geiss

After the special Crawford County Commissioners meeting last week held to air alleged misdeeds of two of its members, the division between the commissioners can no longer be ignored.

For some time now the air in the commissioners chamber has crackled with antagonism that apparently has no relationship to party politics. From our viewpoint it appears that the issues dividing the two sides on many items is heavily tainted with personality conflict.

Thus far the antagonism does not seem to have affected decisions but only drags out the business of the day. As tempers flare, however, there is a distinct possibility that the matters of running the county may well be based on which side of a divided com-

mission a member supports. Once that occurs elected officials will no longer be representing their constituents.

It is time now for both sides to have a level headed session and confront the personality issue. Intelligent people should be able to sit down and face the truth.

Yes, it is easy for a person to pound out an editorial telling someone to talk matters over and make compromises that will correct this situation. On the other hand, what other recommendation could possibly be made by anyone?

It will not be an easy job for the two sides to swallow pride and say let's get along for the sake of our constituents.

At some point it must be done or the matter may be taken out of the commissioners

March 2, 1987 Mr. Bob Ditmer c/o WQON, 100 FM 502 Norway Grayling, MI 49738

Dear Mr. Ditmer: I write to you to express my dismay at your cancellation of The New Life Hour. As a Christian, and a rock music lover, I enjoyed the opportunity to listen to some contemporary Christian music, as well as commentary on some very timely and pertinent issues. I think the thing I liked best about The New Life Hour was that it. was produced locally, by local people, and it was live and spontaneous. I understand that it is being replaced by a professionally produced, taped production, which is in no way local. In my opinion, the spontaneity and "folksy" flavor of the show was what made it appealing. People like listening to someone they know. I think that on a Sunday evening at 7:00 p.m., if there is

### For Sale Signs Tell Story

March 6, 1987

Editor, Crawford Co. Avalanche

It is my pleasure and a privilege to live in this wonderful country where everyone has the right to publicly express his opinions. The unsigned, accusatory and scurrilous attack published in the March 5, Avalanche is unfounded. When people start name calling it indicates an inability to write a simple declarative sentence, so they revert to childish tactics.

Most of the arguments addressed in the subject's unsigned letter were anticipated and dealt with in this writer's signed letter published in the same Avalanche.

We shall mention a few other items. We are pleased that the military writer used the word "people" which indicates their understanding that more than one person is complaining. Indeed, there

are many! Despite the burden of high property taxes, we could probably stand a few more taxation dollars as a trade for a more serene life.

Also we believe that the welcome signs were a gesture to other visitors besides just the military.

We recognize the impact that military dollars have on merchants. It would be welcome for a little understanding for our plea.

### North Branch Notes

By Mariene M. Harris (348-2587)

How many of you who have lived in Michigan for many years have ever been to Greenfield Village? It's really an interesting and fun place to tour. Did you know that the family of one of our North Branch area residents, is a contributor to the village?

Peggy Emerick's grandfather Penrod owned a sawmill in Ft. Myers Beach, Florida, that took the eye and imagination of Henry Ford. On the strength of a

handshake, which is how Henry Ford dealt in that long gone era. Grandpa Penrod's sawmill was moved to the Village. Ford promised to take care of the whole Penrod family for life. Peggy's father called square dances for the Fords and he and his brother worked at Greenfield Village.

Unfortunately Henry Ford died and so did his promise. Peggy's father worked at Fords until his retirement back to Ft. Myers, Florida.

During her last year of high school, Peggy also worked at the Village and

continued working through college as a Greenfield Village tour guide. Peggy was born and raised

in Dearborn and is a graduate of Eastern Michigan University with a Bachelor of Arts degree in Music Education. After her first marriage in 1961, she taught fifty students voice and piano in her home for twelve years while raising her two sons, Timothy and Bradley Lampe.

Tim is attending college in Ann Arbor and also works at Riders Hobby Shop where they specialize in remote control airplanes. He will obtain his degree in Administrative Mechanical Aviation next year. Tim is also into motorcycle road racing.

Brad and his wife Rhonda, live in Jenison. Brad is attending Grand Valley College and works at LaBac Studio of Grand Rapids as a professional photographer. Peggy's home is full of beautiful and clever photos by Brad.

The boys' great grandmother on their father's side, Edith Reeves Nichols, was the first "Miss America" in 1904. At that time the winners were called "Miss Atlantic City." Her talent was horseback riding and acting. Peggy has a picture of her and she is quite a

manager at the Ann Arbor Inn for five years before moving to our area. Her second husband brought her, the two boys and two large dogs to our northern community in 1975. While substitute teaching for the Crawford-AuSable school system, she furthered her education by riding her Honda 750 motorcycle to CMU for her graduate studies.

Since 1976 Peggy has been the Vocal Elementary Music instructor for the 900 students at the Grayling and Frederic Elementary schools. She is excited that next year she will have her own room instead of pushing a piano from room to room as she has in the past.

Her summers are spent working at the Officers Club at Camp Grayling, running five miles a day, and birdwatching for the Audubon Society all year-round. She is the director of the Milltown Chorale and sings in the Methodist Church Choir. This summer she will be taking a fly fishing class in Traverse City to better utilize the river she loves.

Peggy says she was a city girl born and raised and thought she would hate living in the woods. Now she feels she couldn't live anvwhere else since she has become addicted to the peace-

Bay Council will explore the history of Girl Scouting with former Girl Scouts who have been invited to serve as travel guides. Together, alumni and present-day Girl Scouts will share recollections of earlier times, such as how women won the right to vote during the suffrage movement or how Girl Scouts took an active part on the domestic front during times of national crisis.

Service to others is a tradition in Girl Scouting and the 75th year will also be

celebrated by giving gifts of service to the community. Troops will initiate projects such as escorting the elderly to medical appointments, creating activities for the disabled or cleaning up city parks during the summer. Several of the projects will take a team approach, allowing many Girl Scouts to participate.

The year-round festivities will kick off on March 12, the Girl Scout birthday, when members and friends will them.

### Jones Takes 5th At State Finals

Ward Jones placed fifth at the state finals and all four Grayling wrestlers won rhatches in the Friday and Saturday competition near Grand Rapids.

Bucky Monforton placed 8th and Tim Colling and Brian Kernstock placed in the top 12 wrestlers in the state for class C in their weight classes.

All four GHS wrestlers competing in the state finals this year are underclassmen. Jones, Monforton, and Colling are juniors. Kern-

Ward Jones

stock is a sophomore.

Jones won three matches at state while losing two. He pushed his season record to 39-9 and recorded two more pins. Jones finished the year with 27 pins — a new GHS record. He improved on the previous record of 25 pins by Barsie Cross, a state champion.

Jones won his first matches beating Beaman, 38-8, from Leslie, and Frind, 36-10, from Holton. He then lost to state champ Daggy, 45-2, from Dewitte, and Weisenberger, 43-8-1, from New Lothrup. Jones defeated Frind again to earn a medal for 5th place at 155 pounds. The top sixth finishers earn medals at the state meet.

Monforton was one win away from earning a medal at 126 pounds. He beat Peterson, from Michigan Center, and lost to Bailey from Edwardburg. Monforton beat Dodd, of Quincey, and then lost to O'Boyle, of Breckenridge.

Viking coach Don Fergu-

were the hardest he's seen in a long while. He pointed out that O'Boyle, who was 2nd in state last year, had to fight just to finish 5th this year. Ferguson said a lot of good wrestlers got knocked off because of the tough competition.

Monforton finished 28-11 for the year.

Colling, 38-16, at 138 pounds, lost to Robinson, 41-2, of Addison, in the first round. He then beat Hayes, of Constantine, and lost to Lemine, of Freeman.

Kernstock, 27-14, at 185 pounds, finished with 21 pins for the year. He lost to Hass, of Bad Axe and then beat McDowell, 38-2, of Bryon Center, with a pin. He lost to Sales, of Rogers City.

Grayling finished 21 out of 78 teams represented. There were 12 freshmen, 38 sophomores, 66 juniors, and 102 seniors at the finals.

Ferguson said all four wrestlers worked hard at finals and he's looking forward to next year when GHS son said this year's finals has 10 returning lettermen.

### Grayling Volleyballers Win District Title

The 1987 GHS volleyball team brought home the first championship trophy for volleyball in the school's history on Saturday, March 7.

Grayling beat Tawas, 15-8. 15-10, Whittemore-Prescott 15-11, 15-1, and Clare 15-6, 12-15, 16-14 in the finals.

In the deciding game against Clare, Grayling was

down 12-14 and Clare was serving for the match and the district trophy. "The tournament was

played in the Clare gym and the crowd was behind them, cheering for that last point," said Viking coach Becky Brown.

Clare hit the serve in and Chris Schwartz made a save on the ball. The Vikings set up Michelle Moore and she faked a spike and dropped a tip over to win back the serve.

Moore then went back to the service line and served four times with Jenny Money and Sue Casler scoring points to tie the game and win 16-14.

"Everyone was picking up balls. It seems like there weren't many that hit the floor," said Brown. "The team also did an excellent job with soft attacks. We were disguising tips off the set and when we did spike it was effective."

Clare had the home court advantage and a height advantage over the Vikings. Clare's players averaged 5'8" and they had one sixfooter. Grayling's players average 5'3" and the tallest players is 5'8".

In the first game, Grayling kept Clare on the defensive for most of the game and handled Clare's big hitters well. In the second game the home crowd pumped up Clare and helped them fight back for a 15-12 win.

ling trailed by two or more points most of the game. The Vikings were behind 8-11 and pulled even to 12-12.

"It was a good match for both teams," said Brown. "There were no easy points given up. Most of the points were long and both teams were hitting their serves in."

Grayling drew a bye to start the day. Tawas defeated Roscommon before losing to Grayling. WhittemorePrescott beat Houghton Lake before losing to Grayling.

Brown said her team played aggressively all day. The team had a 92 percent hit ratio with anything above 90 percent considered good.

Sue Casler led the team in serving with 37, Jenny Money had 23, Michelle Moore 21, Chris Schwartz 19, Jamie Kaiser 18, and Carrie Trudgeon 18.

Trudgeon led in sets with 53. Kaiser had 49. Casler 19. Money 15, and Moore 15.

Casler led the team with 33 spikes, Moore had 27, Schwartz 21, Money 17, Kaiser 15, and Trudgeon 4. Moore led the team with 33 blocks, Money had 16,

Schwartz 3, and Trudgeon 2. Schwartz led the team with 23 tips, Moore had 22, Kaiser 21, Casler 20, Trudgeon 14, and Money 10.

Moore led the team in passing with 110, Kaiser had 87. Money 85. Schwartz 69, Trudgeon 61, and Casler 47.

Casler and Moore led the team in saves with 7 each, Kaiser had 6, Money, Trudgeon, and Schwartz 4 each.

Before districts, Brown said Grayling had an excellent match with Kalkaska to end the regular season. The Vikings lost 10-15, 16-14, 12-15, 15-11, 15-10, but Brown said both teams benefitted from the tough match. Grayling went on to win the districts they were in and Kalkaska went on to finish In the final game, Gray- second in another district behind state-ranked Rogers

> Grayling had been running into Rogers City in the districts for the last couple of years. This year they will meet Rogers City in regional action this Saturday at Clare. Grayling, 27-11, Rogers City, and two other teams will compete for the regional title. For game times call the Grayling High School 348-7641.

tain. On Sunday, the hills were drenched by a steady downpour which then froze solid overnight as a cold

front moved in leaving the slopes and race courses "all ice with a little bit of give" according to one observer's description.

The Michigan Huron Shores Conference and Region 4 racers dominated the meet as the Petoskey boys and Harbor Springs girls teams captured first place honors followed closely by last year's State Champion Traverse City Central boys and girls who missed successfully defending their titles by 5 and 30 points respectively.

In the individual statistics, almost half of the top 10 slalom raced against the Vikings in the Region 4 Finals illustrating the outstanding level of competition which exists in the Northwest corner of the lower peninsula.

The Grayling skiers, who qualified as individuals, were led by Jayson Welser who finished 13th in slalom. Welser took a flush backwards at the end of the course on his first run costing him valuable time and a top ten finish.

Julie Huss, who competed in giant slalom, skied two strong, fast runs finishing 21st in a field of 80 in an event which found the top 5 finishers separated by a mere 46/100ths of a second.

Cari Longworth, racing in slalom, was in the top 20 at the end of her first run only to hook a tip on a gate at the top of the course on her 2nd

run, ending up in 37th place. Head coach Mike Wieland was pleased with his top three racers performance noting that Senior Cari Longworth earned a well deserved place in the State Finals after 4 successful years of racing while Juniors Keith Whaley 2. Kinnee had Welser and Huss demonstrated that they have the potential to lead the conference and region next season and finish among the top high school racers in the State.

### MHSC Champ Edges Viking Squad 75-71

Grayling put a scare into Michigan Huron Shores Conskiers in slalom and giant, ference champion Cheboygan before losing 75-71 last Friday.

Cheboygan, 17-3, had a 17point lead in the 3rd quarter against Grayling, 10-10, but the Vikings kept battling back.

"In the second half, the kids gave it all they had." said Viking coach Tom Mills. "That's all you can ask of them. They played hard and played good basketball in the second half."

Grayling cut the lead to 6 points late in the fourth quarter, dropped the lead to four points, and finally pulled to within two points with less than a minute to go.

Cheboygan made both ends of a 1-and-1 with three seconds to go to clinch the

John Solomonson, former state wrestling champion for GHS, earned All-American honors Saturday by placing 4th in the NCAA-Division II wrestling finals at Southern Illinois. Solomonson, a senior at Ferris State College, finished the year with a 24-7 record. He helped lead Ferris to a 7th place among 37 teams — the highest finish ever for Ferris.

Solomonson went 3-2 at the nationals, losing his opening match 10-4 to the second seeded wrestler in the 177-pound weight class. He then won three matches in a row 2-1, 7-4, and 2-1. He lost 3-1 in the consolation finals but the top four wrestlers earn All-American honors.

Solomonson won his conference this year and finished second at regional NCAA-II action.

# How to build HOME EQUITY 30% FASTER

PAY OFF YOUR HOME 8 YEARS SOONER AND SAVE \$31,121 WITH OUR BIWEEKLY MORTGAGE\* Loan Balance

BIWEEKLY MORTGAGE Loan Balance \$47.986.50 MONTHLY MORTGAGE

See how much faster you can pay off your home when you choose a Great Lakes Federal Biweekly Mortgage instead of a typical fixed-rate, 30-year mortgage.

Instead of conventional monthly payments, you'll make halfpayments every other week. The smaller, more frequent payments and the one extra annual payment make a big difference in the cost and length of your loan.

Find out how you can pay off your home sooner and save \$31,121 in interest. Ask your Realtor or call 1-800-DIAL-GLF for complete details about the Biweekly Mortgage.

\*NOTE: This example is based on a \$50,000 loan with 20% down and an interest rate of 9.125% (9.47% APR). Different loan amounts and interest rates will still result in significant, though different, savings. The Biweekly Mortgage is offered in conjunction with a Great Lakes Federal automatic payment checking account.

### Mental Health

PROLONGED INACTIVITY

PRODUCES MORE PROBLEMS If you put an elderly ill person in a situation where his movement is considerably restricted he will progressively get worse without any worsening of the underlying disease process. Why does this happen? Simple in-

activity. There is severe disturbance in protein metabdlism which results in a wasting of muscles, a thinning of bone and a general weakening of functional capacity of the skeletal and muscular system on disuse

If a patient remains in one

position and particularly an elderly individual, whether that be lying or sitting incessantly, the range of movement of the joint itself becomes severely restricted so that real disability develops — a real disability that is extremely difficult to treat — contracture of the joints. If you sit long enough and don't walk, you will be unable to walk because you can't stand up again.

And the same thing is true of prolonged bed rest. Because the subtle changes of aging which do occur, whether we like it or not, older people are different,

behaviorally and physically, than younger people. This is v a fact of life and a fact of biological aging.

Prolonged inactivity results in incontinence and inability to control the bowel or the bladder, soiling of the bed, soiling of the clothes, but more important, in a

large number of cases, the breakdown of the skin and the development of ulcers which may pose a very serious problem in their management and indeed may result in loss of life.

TO THE CUSTOMERS OF

MICHIGAN CONSOLIDATED GAS COMPANY Case No. U-8684

In the matter of instituting proceedings to consider changes in the rates of Michigan Consolidated Gas Company to reflect the effects of the Tax Reform Act of 1986.

NOTICE OF HEARING

On December 17, 1986 the Michigan Public Service Commission (MPSC) issued an order instituting a contested case proceeding in which interested parties can address the effects of the Tax Reform Act of 1986 (TRA) on the rates charged by Michigan Consolidated Gas Company (MichCon). MichCon is required to show cause why its rates should not be reduced to reflect the effect of the TRA. MichCon will be filing, in the format required by the Commission, testimony and schedules which show the impact of the TRA on its operations. MichCon's filing will show that rates should be reduced on a permanent basis by approximately \$15 million effective July 1, 1987. Secondly, MichCon will propose to refund almost \$10 million attributable to federal income tax deferrals that are no longer required. Among the issues to be considered is question of when changes in rates to reflect the effects of the TRA should occur. The MPSC believes that new rates should be effective, July 1, 1987, when the 34% tax rate takes effect. However, parties may address factual and legal issues concerning this question.

**NOTICE IS HEREBY GIVEN that:** A. The Commission has instituted a proceeding in which MichCon is required to show cause why its rates should not be reduced to reflect the effects of the TRA. B. A prehearing in Case No. U-8684 will be held in the Commission's offices at 6545 Mercantile Way,

Subparagraph (2) of said Rule 11 provides as

"(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the commission of the specific issues of fact or law to be raised or controverted." ### The Bible Speaks

From Calvary Baptist Church —

#### The New Age Movement Part 14

**Avoiding Deception** 

The primary doctrine of the New Age Movement comes from the words of Satan in the Garden of Eden. Yea, hath God said...?" reminds us that God's Word is always questioned and denied. Marilyn Ferguson, New Age author of "The 'Aquarian Conspiracy'' has said of the Bible: "It's just not right — not right. That book should not be allowed! It's too misleading!" When asked by Constance Cumbey why she believed that, she

eplied, "The antichrist is not the negative thing the Bible's made him out to be!" The second doctrinal error Satan taught in Genesis 3 was, "Ye shall not surely

die." The New Age belief in reincarnation instead of death and resurrection, teaches the same lie. All denial of the punishment of eath and hell are still Satan's lies contrary to the

The third doctrinal error Satan taught in Genesis 3 was, "...Ye shall be as gods, knowing good and evil."

Satan taught the human race to deny God's Word and believe his lies, and they would receive special knowledge which would. nable them to be their own judge of right and wrong. Today, the New Age Movement tells man he is a

god, there is no absolute authority over him, and he has personal "rights" which no creature can challenge.

Constance Cumbey lists the Bibles of the New Age to nclude: "Oahspe; The Aquarian Gospel of Jesus the Christ; My Truth, the Lord Himself; My Peace, the Lord Himself; The Book of Urantia; The Secret Doctrine; The Keys of Enoch: the Book of Knowledge;

Revelation: The Birth of a New Age, etc."

Cumbey lists some of the code words and signals or buzz-words used by the movement such as: Holistic: Transformation; Spaceship Earth; Global Village; Interdependent or interdependence; Manifestation or manifest; Initiation or Initiate; Crowded planet; Transcedent; Consciousnessrising; Paradigm or 'new paradigm'; Vision of 'new vision'; Global thread; New Consciousness; Planetary vision; Global vision; and Transpersonal."

Cumbey also gives a partial list of other names included in the New Age Movement such as: "The Aquarian Conspiracy; The Age of Aquarius; Humanistic Psychology; Networking Movement; Thought Religion; The New Church; The Third Wave; The Third Force; New Consciousness; Transcedental Movement; The New Spirituality; Secular Humanism; and Humanism.

A Christian should reject anything which questions or denies clear Bible Truth from God.

### THE CHURCH: A Place To Feel

The old man had been deaf most of his life. But every Sunday found him in church, sitting on the same pew, attempting to go through the motions of worship in harmony with the other worshipers. Yet, his every act of worship was a strain carried out in his world of

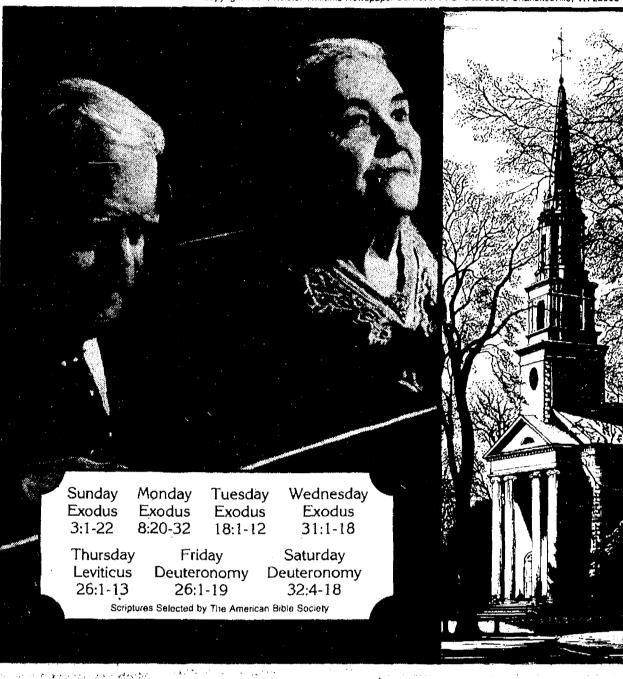

A close friend wrote on a piece of paper and handed it to the old man. He read, "Why do you go to church? You can't hear a word that is said."

Calling on his broken and faltering English remembered from his hearing days, he said, "To let people know whose side I'm on!"

He continued, "At worship in church I may not hear much, but I FEEL MUCH. I feel what's happening around me; the music's rhythm touches me; the prayers hold me close; the smiles on people's faces during the sermon and the intensity I sense from them, give me a feeling of God's presence.'

Worshiping in church gives a feeling that no other expression of God's presence approaches. No wonder the writer of Hebrews instructed: "Forsake not the assemblying of ourselves together." (Hebrews 10:25)

The restaurant was completed and opened in March of 1983 with a menu as the name states of chicken and fish. A takeout window at first conditioned people to believe that there was no acsit down restaurant space but as the visitors and local residents became acquainted with it the seating space became heavily used.

According to June Savoie,

co-owner of the establishment, the menu has changed markedly since those early days. From the deep fried chicken and batter dipped cod, many new food delights have been added including sandwiches, dinners with french fries, cole slaw and homemade buttermilk bischoices of potatoes and

specials. The soups and specials have really increased the lunch customers, Savoie said.

Two of the ladies, Joanne Meldrum and Clarice Lester, have since sold their interest to the present co-

owners Doty Latuszek and Savoie. All of the ladies were involved in the food business in one way or another before opening the restaurant, Savoie said. Latuszek had grown up in the business since her parents had owned the Penquin Inn and the Shamrock Restaucuits. Now added to that are rant which was on the site of the Knights of Columbus homemade soups plus daily

Savoie had worked as a waitress while going to college and even afterward when she was teaching. The ladies began to plan the restaurant as they met while still teaching in the St. Mary's of Gaylord Schools.

Savoie said that the

restaurant employs 10 part time persons and she manages the operation. Latuszek is the only one still in the teaching profession but has changed her level from high school to college as she teaches mathematics for Kirtland Community College. She also does a stint at the restaurant, Savoie said, as well as being on the Grayling City Council... Savoie is on the Board of Directors of the Grayling Chamber of Commerce.

To celebrate the fourth birthday, beginning Sunday, March 22, through Wednesday, March 25, after 4 p.m. there will be a four piece chicken dinner for \$4.

### How To Get Out of Debt

By Gail Edwards,

**Extension Home Economist** Have you fallen into the debt trap? If so, you're not alone. Many families suffer from out-of-control credit card charges and loans.

Credit counselors say that getting out of debt is one of toughest problems and may take two or three years. Extension specialists at Michigan State University offer these tips for cutting debt load:

-Go cold turkey. Cut up your credit cards or put them away in your safe deposit box. This may be the only way you can pay off your old debts without adding new ones.

-Channel any "found money" directly creditors. Any money you get in addition to your regular income-such as tax refund, a pay raise, overtime pay or a gift—should go directly to the lenders.

-Cut other expenses ruthlessly and use the excess to pay off old debts or avoid new charges. Redirect cash from the non-essential to the essentials that you would otherwise charge. Deciding

just exactly where to cut is an individual or family matter, but some common targets include excessive entertainment (but don't cut it clude all but your rent or all out), long-distance phone calls, or eating out or cable payment figure is more than television.

To figure out how much you can afford to charge is easy. Total up your monthly payments for creditors—inmortgage. If that total 20 percent of your monthly

take-home pay, don't charge any more. In fact, for some households-such as those with low incomes, many family members or a relatively new mortgage, 20 percent may be too high.

### Crawford Drivers Can Use **Credit Cards When Paying** License Fees Through Mail

Crawford County motorists can now use credit cards to pay for their license plates and driver licenses when using the Department of State's mail program, Secretary of State Richard H. Austin announced today.

Crawford County motorists join those in 53 other counties who can use their VISA or MasterCard to charge their fees. The credit card program, the first of its kind for motorists in the nation, should be available in all 83 Michigan counties by July.

"We are hopeful the acceptance of credit cards will increase our mail business,"

"I expect the use of credit cards to be as popular as when we began accepting personal checks for the payment of fees in 1971," Austin added.

Beginning this week. Crawford County's 7.730 drivers who own 9,170 vehicles will receive charge slips when their license renewal notices arrive in the

The Department of State

began accepting credit cards under a pilot program last October shortly after receiving authorization from the Michigan Legislature.

During the pilot program, motorists who used their credit cards charged an average of \$50 in fees.

The Department is implementing the credit card program by adding a num ber of counties each month. In addition to Crawford County, 24 other counties have been added to the program this month.

Credit cards cannot be used in local Secretary of State branch offices.

### Have You Won a Vacation?

The Better Business Bureau in Detroit has recently received inquiries and complaints on vacation certificate offers. To assist consumers in determining the reliability of vacation certificates, the Bureau has recently released a new booklet, "Have You Won a Vacation?"

Vacation certificates may vary from "free" hotel lodging, airfare, and cruises, to purchasing one airfare and getting the second one free. Coupons for restaurants, tours and attractions may also be included in the package.

Often there are requirements which must be met in order to be eligible to receive a "free" vacation. Con-

sumers may be required to make a purchase or attend a sales presentation prior to receiving information about the trip. Companies may also require a non-refundable processing and handling fee or a deposit to hold a reservation.

Quite often, these vacations are offered as an incentive to draw customers to the sales site. Keep in mind, however, consumers usually do not get something for nothing. The company may make up for its loss in other
